- How do we use the app

# Acknowledgements

- I want to give a small vote of thanks for all who have helped me in this journey of App Development which includes my parents, Mentors, Dr. Ken Khan, Group Members, Friends and SNAP

# About Me..

- My name is burhanuddin ali akbar
- I am 9yrs old
- I am in 5th grade
- I am passionate about coding
- My favourite hobbies are play football and swimming.

# About My Internship Journey with Clevered..

My journey so far has been great , fun and exciting.

I had fun during my classes as they were very interactive.

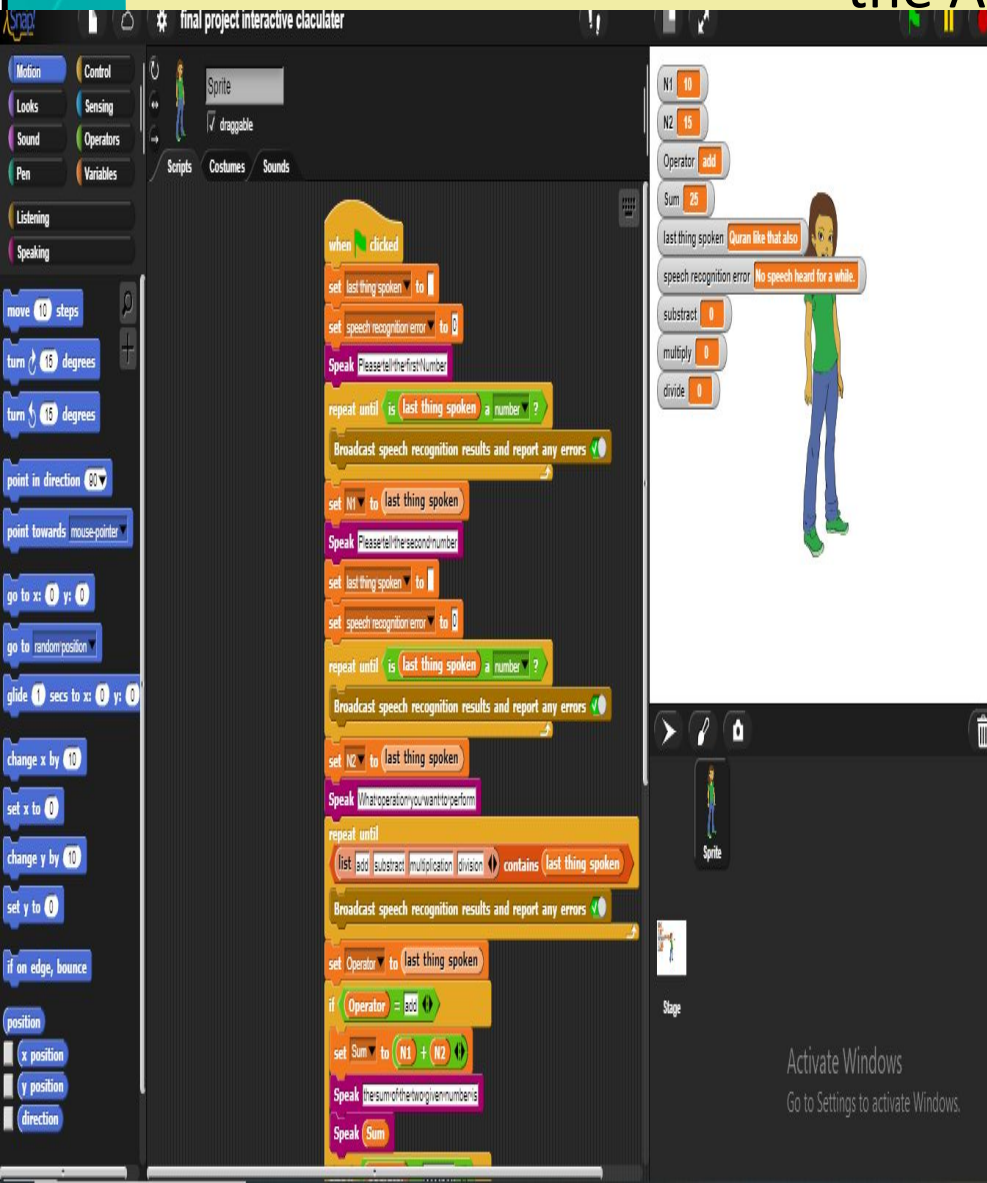

I even learned many new things.

# About App..

- The app is a interactive calculator you can ask it these type of questions:
  - Addition:+
  - subtraction:-
  - multiplication:\*
  - division:/
- Its a calculator which in you dont have to type instead you have to talk

# Option Name (This will be repeated for each option of the App)

- To use the interactive calculator you should speak loudly. Some times the speech recognition system will not able to detect your voice

The background of the slide is a solid teal color. Overlaid on this background is a faint, light-blue network diagram. This diagram consists of numerous small circular nodes connected by thin, straight lines, creating a complex web of connections that spans the entire frame. In the center of the slide, there is a horizontal rectangular box with a pale yellow or cream-colored fill. Inside this box, the text "Thank you!" is written in a bold, black, sans-serif font.

**Thank you!**
